

947, Paul, Bud

3/18/69

Dear Mr. Brown,

Again I consult you as cryptographic expert, this time with the observation of a friend who I had asked to look for any occurrence of the number 110,669. His letters are attached.

Should you consult anyone else, I'd prefer that these numbers not be disclosed, if at all possible. Could you pose any question with substituted similar numbers?

In fact, I would like the entire matter to be quite confidential.

However, I do let you know the significance of 110,669. It is one of the most entirely suppressed facts of the entire investigation. Despite all the misrepresentations, it is the number allegedly that of Oswald as an agent.

He was never alleged to have been Agent S-179, or to have been paid on Voucher No. S-179. These were deliberate misrepresentations. They served the additional deceptive purpose of making it possible for affidavits of denial to be prepared by the J. Edgar Hoovers with no danger of perjury.

I look forward to hearing from you. I plan to use this in a partly-written book, AGENT OSWALD.

Have you tried to learn whether there might be significance for the Russian "DD" before the 19106 in Oswald's notebook?

Sincerely,

Harold Weisberg
